Why Offer an Extended Day Option?

Chesapeake Academy was founded in 1889 and reestablished in 1965. The school is fully accredited by the Virginia Association of Independent Schools, and is governed by a self-perpetuating volunteer board of trustees.

The extended day option is offered at Chesapeake Academy to accommodate the child care needs of Academy families. The extended day program is open to children aged 3 years (by September 30) to third grade in order to support busy families that often struggle to balance hectic schedules and need dependable, consistent, caring child care. An extended day option at Chesapeake Academy is designed to help answer these modern issues in a manner that offers the maximum programmatic consistency for children.

Registration

Only those students who have completed the regular admissions process and are currently enrolled in Chesapeake Academy's are eligible for the extended day program. All reservations are handled by Ms. Connie Smith, Administrative Assistant to the Head of School. Parents must reserve space in the program by the last Monday of each month for the coming month.

Reserved spaces are billed at \$5.50 per hour. As needed care is also available with 24 hours advance notice. As needed care is billed at 7.50 per hour. Fees are handled in the business office and reserved care will be billed regardless of attendance.

New in the 2017-18 school year, Pre-K 3 & 4 families may select a Flexible Full-Day Tuition Plan that offers some financial advantages for children who consistently use childcare. Contact Richard Abbott in the Business Office to explore this option.

In accordance with licensing requirements, parents must provide a current and complete health and immunization form annually, a certified copy of the

child's birth certificate and a current and complete permission and emergency information sheet prior to the first day of care. These forms will be on file in the administrative office and in Wiley Hall in the extended day files.

Information included in these registration materials is considered confidential.

Staffing

An extended day program director and program leaders staff the extended day program. These personnel report through the Early Childhood Programs Director to the Head of School. All extended day staff meet the requirements of the Department of Social Services for employment. All copies of tuberculosis tests, criminal records checks, child protective services checks, and personal references are kept on file in the Academy's administrative office. Parents may reach staff during school hours at (804) 438-5575.

Fees and Payment Options

All billing is processed through the business office. Billing is mailed to parents the first week of each month.

It's All in a Day

Children attending the extended day program are escorted to the extended day classroom after early childhood dismissal at noon. After taking a few minutes to use the restroom and wash hands, lunch, provided from home, is served in the extended day classroom from approximately 12:00 to 12:30. After lunch, children will go outside for some fresh air and exercise on the playground. Appropriate hats, gloves and coats are necessary in chilly weather. On rainy days, children will play indoors with age-appropriate toys and games in the classroom. Play or art activities are also a part of the extended day daily routine. A quiet rest/nap time (of at least an hour) will follow outdoor activities. During this period, children may listen to quiet music or story tapes while they stretch out on their napping mats. Quiet

drawing with crayons and paper is also permitted.

A flexible daily schedule is posted in the commons area of Wiley Hall each day.

Arrival/Dismissal

An teacher accompanies all children to the extended day program. Should a child arrive late for the extended day program, the responsible adult must check in with the childcare provider.

Only those person's authorized by the parent in writing may pick up a child at the end of the day. Personal contact must be made with the caregiver before taking a child home each day. A written note must accompany any change in the normal dismissal procedures. Children will not be dismissed without proper parental authorization.

Children attending the extended day program who are to be picked up at 3:10 may be retrieved from lower school dismissal site. All other extended care students may be picked up from Wiley Hall. All extended day students will be accompanied by a caregiver until they are picked up. Children who have not been collected at the end of extended day will be accompanied to the administrative office to wait for their parents.

Lunches

The extended day program does not offer lunch to participants at this time. Packed lunches from home should be in containers clearly marked with the child's name and the date. Warm foods should be heated at home and sent in a thermos. Unused food will be returned for parents to see (It's always nice to know what actually went "down the hatch"). Also, it is recommended to pack an extra drink or water for your child and an afternoon snack as needed. In the event that a small person forgets/does not have a packed lunch, one will be provided.

Nap Time

As rest time is part of the extended day program, children will need their own cushioned, wipeable rest mat (available at Walmart) and fleece blanket purchased at the school's Osprey Nest store. These should be clearly marked with the owner's name. Soft toys are also acceptable snooze-assistance. Parents take blankets home to be washed each Friday.

Behavior

Behavioral expectations are consistent with those in the early childhood program and throughout Chesapeake Academy. Students are taught to demonstrate respect, cooperation, and self-control at age appropriate levels and to participate in a constructive manner in activities planned for them.

Behavioral expectations are made clear and reiterated routinely. Ensuring adequate understanding, taking time out to ponder, and the loss of privileges are among methods that may be used to make corrections most effective when necessary. No physical punishment is ever used. Parents are informed of behavioral goals and concerns, and conferences are requested as necessary. Reports on extended day are included in the Academy's report cards once per semester. Should concerns exist, parents must work with the caregiver to resolve issues. A child who is unable to comply with behavioral expectations may be asked to withdraw from the extended day program.

How Sick is "Sick"?

As parents know, children's health is ever changing and can seem like a very gray area. It is sometimes hard to tell when a child is really unwell. In the interest of minimizing the spread of "bugs" and keeping our school community as healthy as possible, the following guidelines are offered.

In general, children should not attend the extended day program if they have any of the following symptoms:

- Any fever
- Throwing up within the last 12 hours
- Any colored nasal discharge
- Diarrhea
- Rash (chicken pox)
- Pink eye
- Any communicable disease

If your child develops any symptoms of illness during the program, we will let you know as quickly as possible. Should we not be able to reach you, your emergency contacts will be called. If we cannot reach parents or emergency contacts, we will act *in loco parentis* in the best interest of the child in accordance with the signed permission slip and emergency information sheet in the registration package. As part of the extended day registration process, parents agree to notify the school of any communicable disease within 24 hours. Frequent hand washing and lots of fluids can be helpful in preventing illness to some degree and are a part of the daily routine in the extended day program.

Chewing gum, throat lozenges and hard candies are not allowed.

Sunscreen and Insect Repellent

All nonprescription drugs and over-the-counter skin products will be used in accordance with the manufacturer's recommendations and only with parental permissions. Nonprescription drugs and over-the-counter skin products will not be kept or used beyond the expiration date of the product.

If sunscreen is used, the following requirements shall be met:

- Written parent authorization noting any known adverse reactions will be obtained
- Sunscreen will be in the original container labeled with the child's name

- Sunscreen does not need to be kept locked but shall be inaccessible to children under five years of age or those children in a therapeutic child day program or special needs child day program
- Any center-kept sunscreen shall be hypo-allergenic and have a minimum SPF of 15
- Staff members without medication administration training may apply sunscreen, unless it is prescription sunscreen, in which case the storing and application of the sunscreen must meet medication-related requirements

If insect repellent is used, the following requirements will be met:

- Written parent authorization noting any known adverse reactions shall be obtained
- Insect repellent shall be in the original container and labeled with the child's name;
- Insect repellent does not need to be kept locked but shall be inaccessible to children
- A record will be kept that includes the child's name, date of use, frequency of application and any adverse reactions
- Manufacturer's instructions for age, duration and dosage shall be followed
- Staff members without medication administration training may apply insect repellent, unless it is prescription insect repellent, in which case the storing and application of insect repellent must meet medication-related requirements

Medication Guidelines

Should your child need to take any medications while in the extended day program, the caregiver must receive a written notice (authorization to administer medicine and log form available from EC faculty) detailing the medication and its dosages.

All medications are kept locked in designated areas. All medication, including over the counter medications must be labeled with the child's full name, time and dates to be given, and the dosage. All medications must be in the original container and have the original prescription label. Over the counter medications cannot be given for more than a week without written instructions from a physician.

Accidents and Boo Boo's

First aid kits are located in the facility. All accidents, injuries or illnesses are reported to the parent by the staff. Accident reports outline accident circumstances and are signed by parents and staff. Specific arrangements must be made for the administration of any medication. Extended day program staff members are certified in First Aid and CPR and have received training in the daily health observations of children as well as medications administration training.

In the case of any emergency, parents will be contacted. If parents cannot be reached, emergency contacts will be called. If necessary, staff will call 911.

Personal Belongings/Toys

The extended day setting is filled with age appropriate toys, puzzles, and games. The extended day caregiver plans and prepares fun and stimulating activities for students each day. *Please ensure that your child does not bring toys or movies from home.* Blankets and soft toys for nap time are fine.

Reports to Parents

At least once each semester, the caregiver will report to parents to outline the highlights of the program's activities for the past weeks and comment on development, behavior, and any necessary adjustments for each child. These reports are included in the Academy's report cards.

Parking Lot Safety

Safety at Chesapeake Academy is a primary concern! Please share these guidelines on parking lot safety with anyone to whom you have given permission to pick up your child.

- Adults must accompany children when entering and leaving Wiley Hall (children should be within arm's reach).
- *No vehicles may be left running unattended.*
- All traffic moves at a snail's pace (5 mph) on campus, and no passing is permitted. Most vehicles move faster than 5 mph while idling in drive. Ride the brake!
- There is no acceleration zone on campus!

Reporting Child Abuse/Neglect

All employees of this program are required by law to report suspected child abuse and/or neglect.

Emergencies and Weather Related Closings

In the event of a school closing at Chesapeake Academy, the extended day program will also close. Such information is broadcast via WRAR 105.5, WKWI 101.7 and 104.9, WNNT 107.5, WWND 103.9, on TV Channels 6, 8, 10, 12 and on the school's website. Children will remain under supervision until a parent arrives. Please be sure that program leaders have access to the best methods for reaching you (cell phone numbers, email addresses...) for unexpected weather related closings.

Parental Agreements

A written agreement between the parent and the center will be in each child's record by the first day of the child's attendance. The agreement will be signed by the parent and include:

- An authorization for emergency medical care should an emergency occur when the parent cannot be located immediately unless the

parent states in writing an objection to the provision of such care on religious or other grounds

- A statement that the center will notify the parent when the child becomes ill and that the parent will arrange to have the child picked up as soon as possible if so requested by the center
- A statement that the parent will inform the center within 24 hours or the next business day after his child or any member of the immediate household has developed any reportable communicable disease, as defined by the State Board of Health, except for life threatening diseases, which must be reported immediately

Parental Involvement

Parents are welcome to visit the extended day program at any time. A flexible schedule of daily events posted in Wiley Hall will let you know where children are during the day. Parents who wish to volunteer to assist with a planned activity can coordinate this with the caregiver in advance. Young children love to show off their parents, and volunteers are the heart and soul of Chesapeake Academy.

Licensing Information for Parents

The Commonwealth of Virginia helps assure parents that child care programs are safe by requiring licensure through the Department of Social Services. Standards for licensed day care centers address certain health precautions, adequate play space, ratio of children per staff member, equipment, programming and record keeping. Criminal records checks and specific qualifications for staff and most volunteers working with children are also required. Standards require the building to meet applicable fire, health and building codes. Compliance with standards is determined by announced and unannounced visits to the program by licensing staff within the Department of Social Services. In addition, parents or other individuals may register a complaint about the program that will be investigated if it violates a standard.

Chesapeake Academy provides excellent care in well-maintained facilities as a fully licensed day care facility. Our staff is committed to a positive experience for all families and welcomes your thoughts and concerns. Should you have a concern regarding the extended day program, first address your thoughts with the extended day caregivers and the program's director. The Head of the Early Childhood Division and the Head of School are also available to discuss concerns should you find this necessary. Finally, any issue that addresses standards for licensure may be reported to the Department of Social Services.

Confidentiality

Parents should be aware that information in the registration package will be shared with staff members who have responsibility for the care of children in the extended day program. The staff of the extended day program will consider all such information confidential.

Emergency Preparedness Plan

Chesapeake Academy has an emergency preparedness plan that addresses staff responsibility and facility readiness with respect to emergency evacuation and shelter-in-place. The plan developed in consultation with local or state authorities, addresses the most likely to occur emergency scenario or scenarios, including natural disaster, chemical spills, intruder, and terrorism specific to the locality.
